

Tips for our students about classes on Day 1

Most important things to tell students from instructor perspective regarding risk mitigation in academic spaces:

1. Wear your mask, correctly, at all times.
2. Wipe down surfaces upon taking your seat, use good hand hygiene.
3. Stay 6 feet apart from everyone else (not just during class, but at doorways before and after).
4. Stay home if you are sick.
5. Please do not move chairs/furniture in classrooms.
6. Dismiss class by rows and try to maintain social distancing in the hallways.

Most important things to tell students about how to navigate the day:

1. Where do I go to take my online classes if I don't have time to get back home?
 - a) The campus "map" of virtual learning and study spaces can be found here (you can search by building and by day/time): <https://www.marquette.edu/central/registrar/how-do-i-find-virtual-learning-and-study-spaces.php>
2. What should I bring/not bring to classes?
 - a) Bring water (ideally, water bottle with straw/spigot so mask can stay on while drinking in class), snacks in your backpack for when outdoors
 - b) Bring your computer/device and chargers
 - c) Bring your phone with your COVID Cheq passport for campus that day – ready to display
3. What should I do if I cannot attend class that day?
 - a) Reach out to the instructor for make up work/follow-up. Attend class remotely if possible.
 - b) Contact Office of Disability Services if you need to request a reasonable accommodation to access your course remotely.
 - c) Seek medical guidance from MUMC (414-288-7184) or your PCP if your symptoms worsen or persist.
4. What should I do if I see someone violating the community pledge and/or engaging in unsafe behaviors for our community?
 - a) Please complete fill out the community pledge and standards violation form: https://cm.maxient.com/reportingform.php?MarquetteUniv&layout_id=2
