PROGRAM FAQS

Do my spouse and I need our own accounts?

Yes! To track your own participation in the My Wellness program and be eligible for incentives, you and your eligible spouse must follow the directions on the first page of this guide to access your own personal account.

How do I track an activity more than once?

When an activity can be self-verified more than once, you may change the date by selecting the Log Date calendar, choosing a date in a previous month/week/day, and then marking your completion following the steps within the activity description.

Why don't I receive my points right away for some activities?

Certain activities must be administratively verified by Marquee Health for accuracy. Our team works as quickly and efficiently as possible to award points in a timely manner, however, it can take up to 30 days for activities to be reflected within your account.

Why is there a deadline to enroll in a coaching program?

Each telephonic or email coaching program consists of 4 weekly sessions with your dedicated health coach. In order to complete your program before the My Wellness deadline, you must enroll by a certain date to allow enough time to complete the 4 sessions.
